## PICTURE IT!

Throughout this section, the author often uses descriptive language and interesting comparisons, such as *The sun makes that orangey gold line appear around us again.* (p. 69)

Here are some page numbers where other interesting descriptions may be found. Scan the book to find these examples. Then choose any four and draw the picture that each one paints in your mind.

Note the figurative language on pages 7-8, 12, 18, 26.
